

BGMEA/TFC/2026/262

Date: 01 October 2026

To All Honourable Members

Subject: Participation in the Survey on Solar Power Installation and Generation in Member Factories.

This is to inform you that, in view of the global energy crisis, the country's electricity supply situation, and buyers' growing expectations for carbon emission reduction, increasing the use of renewable energy, particularly solar power, has become critically important for the readymade garment industry. In this context, BGMEA is conducting a survey to assess the current status of solar power installation and generation in its member factories. Through this survey, information will be collected on the number of factories that have installed solar power systems.

It may be noted that factories that have not yet installed a solar power system, or where installation is in progress or planned, are also requested to participate in the survey.

In view of the above, all member factories are earnestly requested to complete the survey form through the link below by **08 October 2026**. Members with more than one factory are requested to complete a separate form for each factory.

Survey Link: <https://forms.gle/wu3eFUUzih7kcVdQ8>

The information provided in the survey will be used for aggregated analysis only. For any information or assistance in this regard, you are requested to contact Mr. Sajjadul Alam, Senior Assistant Secretary, TFC, 01723867373.

Thanking you,

Major General Dr. Md. Sahedul Islam (Retd.)

Secretary General
